TO WHOM IT MAY CONCERN

I would like to express my appreciation for the support we received from MRS Technology on our Friction Welding Machines. The machines are now running very consistent and to our satisfaction.

They provided prompt online support as well as in-plant support to fix a chronic problem that others could not resolve.

With their support the machines are significantly safer, more efficient and operator friendly than what they were prior. I would not hesitate to use MRS Technology as a supplier of Friction Welding Machines.

Sincerely,

A handwritten signature in blue ink that reads "David P. Willig".

David P. Willig, CWI
